IssaHanou

ABOUT ME

As a PhD candidate, I have contributed to the AI Planning community and focused on the real-world application of Train Shunting and Rescheduling. Having always enjoyed problem-solving, I was drawn to Algorithmics, where I want to apply my perseverance toward a more sustainable world.

SKILLS

Algorithms Java Python
Julia LaTeX Excel PDDL
ASP

LANGUAGES

Dutch: Native

English: Native
2014: Cambridge (CAE)

Spanish: Beginner

CERTIFICATES

2015: Driver's license,
Dutch type B

ACTIVITIES

2015-2026: Haarlem Accor-
dion Orchestra, first chair

2019-2023: Dutch Symphonic
Accordion Orchestra

2021-2023: Member Blue
Birds First Softball Team

2018: First prize annual
Accordion Concours

2018: Volunteer Haarlemse
Honkbalweek

2014: Member of National
Dutch Softball Team U16 (Jong
Oranje)

WORK EXPERIENCE

PhD candidate | Delft University of Technology

Sep 2022 – Dec 2026 Delft, The Netherlands

Developing AI planning models for train planning in the ICAI joint Robust-Rail project of Delft University of Technology, Utrecht University, ProRail, and NS

Graduate Intern | NS R&D Logistics

Nov 2021 – Jul 2022 Utrecht, The Netherlands

MSc thesis intern on the feasibility of the Train Unit Shunting Problem (TUSP)

Coach Online Introduction CSE | Delft University of Technology

Sep 2019 – May 2022 Delft, The Netherlands

Answered questions of prospective students and managed the online introductory course for Computer Science and Engineering

Student Assistant | Delft University of Technology

Sep 2017 – Nov 2021 Delft, The Netherlands

Assisted on several bachelor courses, mostly within the Algorithmics department; answered students' questions; and designed and checked assignments and exams

Undergraduate Intern & Junior Developer | Raccoon Serious Games

Nov 2019 – Apr 2020 Delft, The Netherlands

Developed system for designing and managing physical escape rooms, integrated the system within the company, and set up two escape rooms

EDUCATION

Practicum Musicae - Classical Accordion | Royal Conservatory

Sep 2020 – Jun 2023 The Hague, The Netherlands

Three-year part-time minor education for solo and ensemble performances

MSc Computer Science | Delft University of Technology

Feb 2020 – Jul 2022 Master Computer Science

Software technology track, with a focus and thesis in Algorithmics department

Sep 2016 – Jan 2020 Bachelor Computer Science and Engineering

Minor in Safety, Security and Justice. Thesis: Designing an escape room Internet of Things

EXTRACURRICULARS

Local Organization | BNAIC/BeNeLearn Conference

Nov 2023 Delft, The Netherlands

As part of the local organization committee, I was involved in organizing the 2023 edition of the Benelux Conference on AI in Delft, with about 250 participants.

Board Member | Haarlem Accordion Orchestra

Jan 2021 – Apr 2024 Haarlem, The Netherlands

Organize national and international concerts, coordinate rehearsals, and manage the association
